

The background features a large, semi-transparent logo for USAREUR Freedom's Expeditionary Force. The logo includes a blue shield with a yellow sword and a pink flame, a green arrow pointing right, and a globe showing the Americas. The text 'USAREUR' is at the top in blue, 'FREEDOM'S EXPEDITIONARY FORCE' is in the middle in white, 'AN ARMY FORWARD' is below that in white, and 'ANY MISSION, ANYWHERE!' is at the bottom in blue.

USAREUR
POST-DEPLOYMENT
SAFETY
ANY MISSION, ANYWHERE!

You have left this behind

Our mission is complete

You've made a difference

And you should be proud
of your contribution

These children have a bright future...

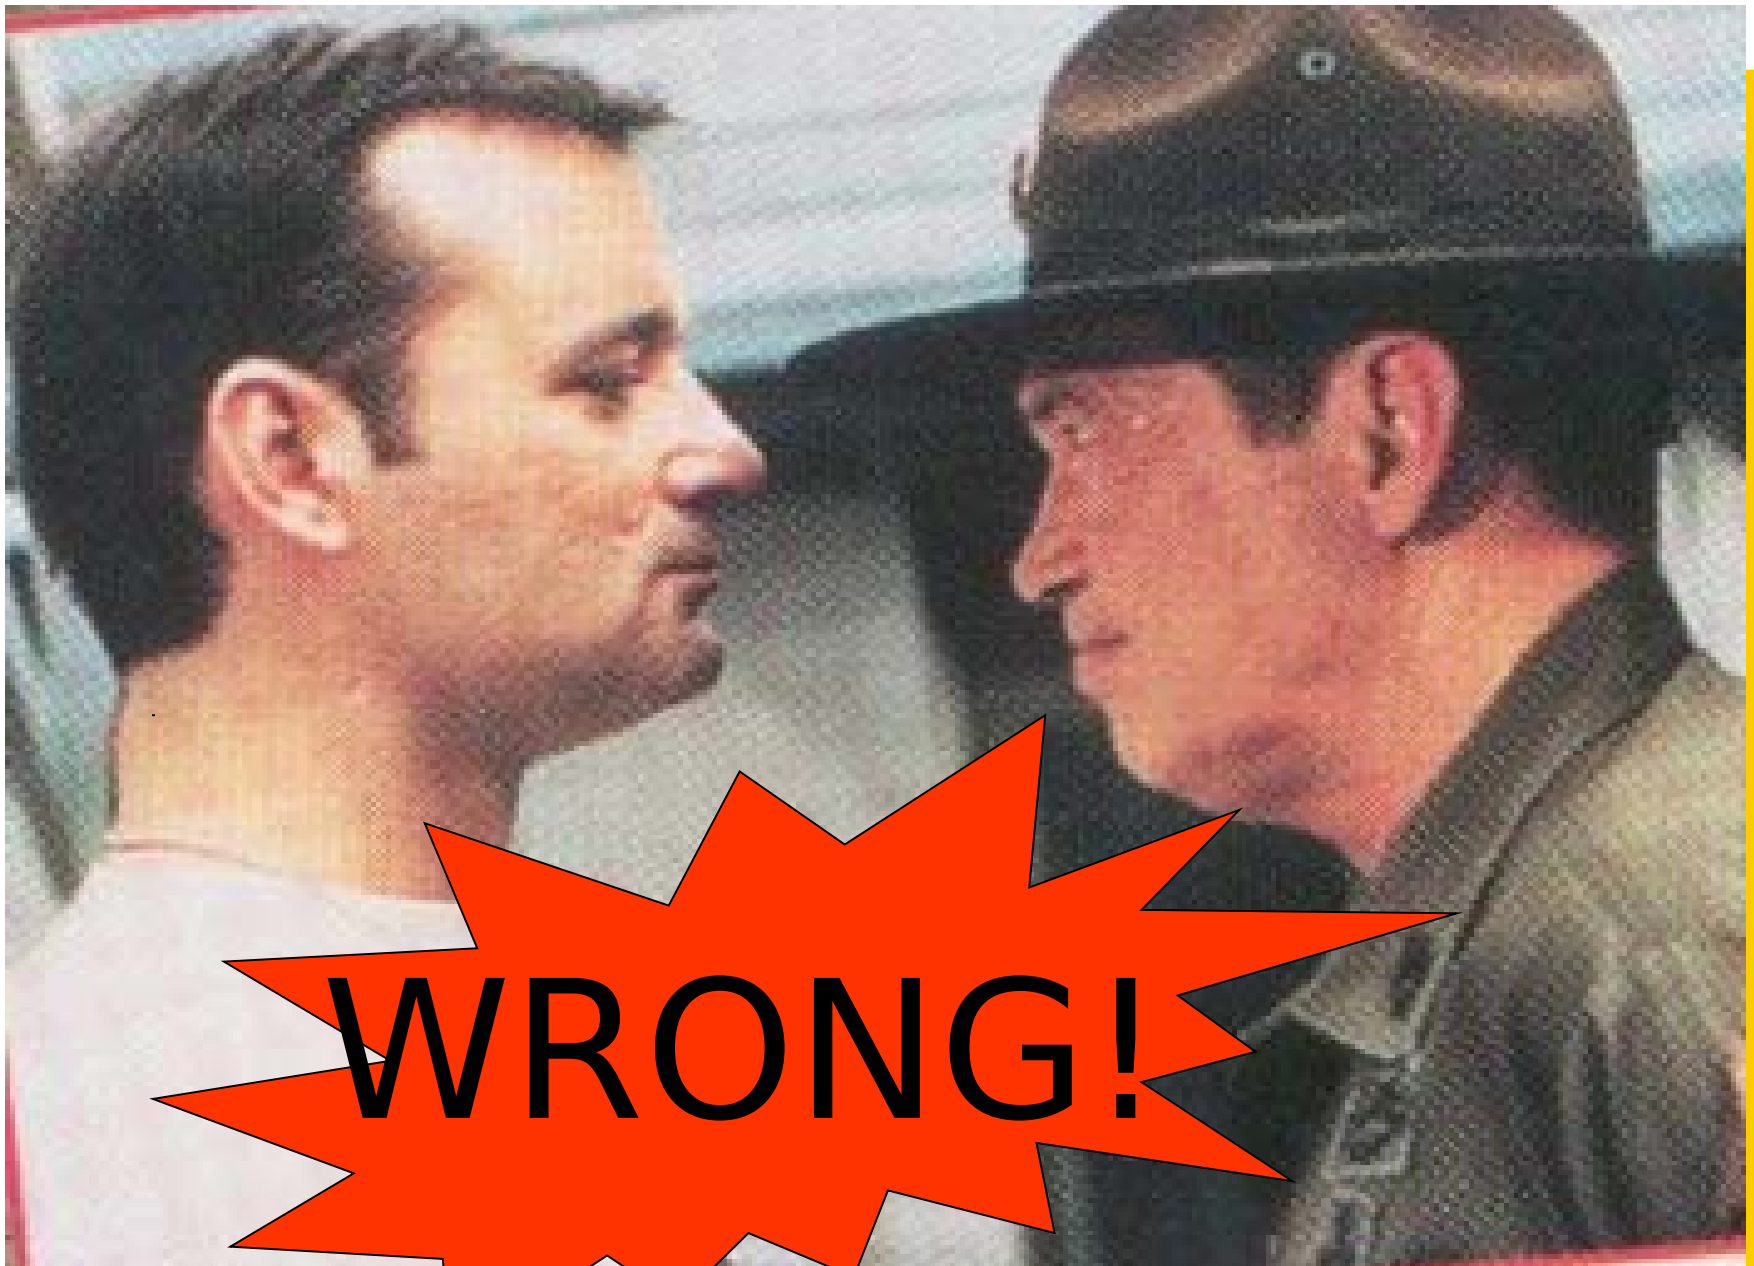

Thanks to you
and your service

Mission Complete!

“Gentleman, It’s party time”

WRONG!

Right now, your biggest battle is
in your mind.

Don't let your guard down now.
Don't get

COMPLACENT

Before you see this
in the rear view mirror,

Let's take time
to think about

POST-DEPLOYMENT
RISK
MANAGEMENT

It's tempting to
daydream about...

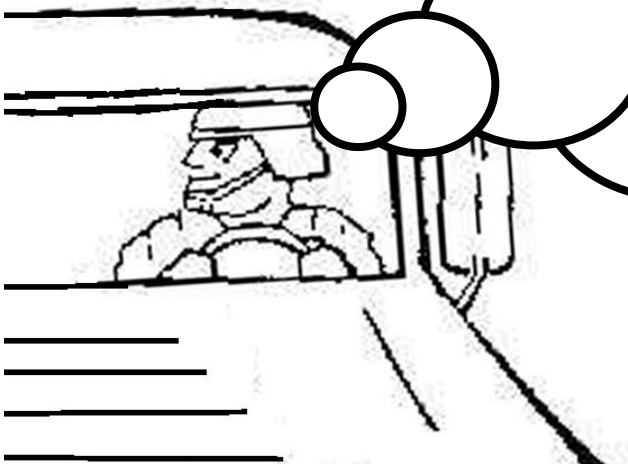

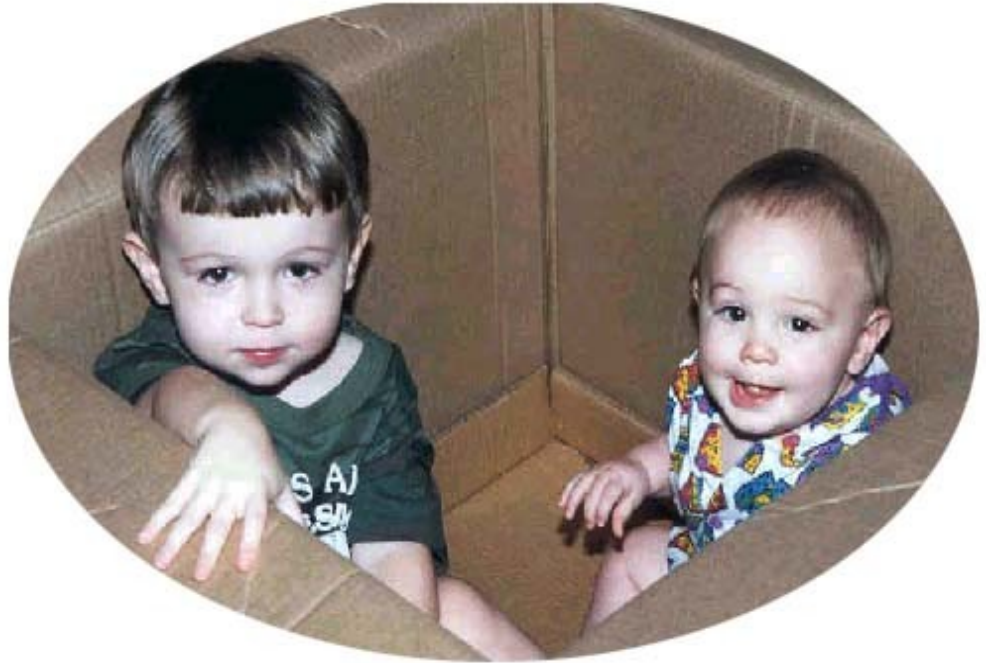

HOME!

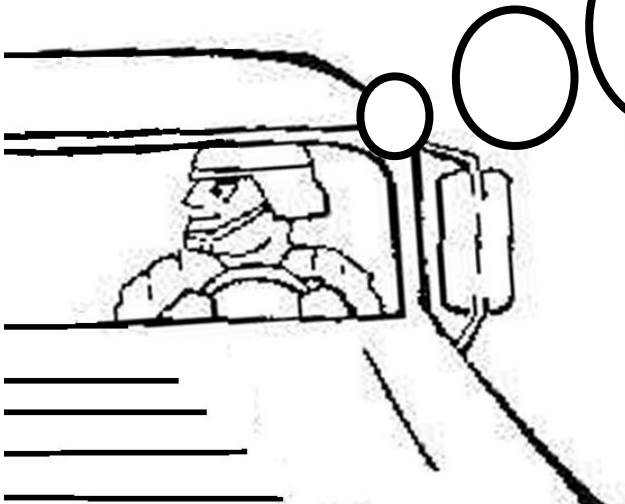

YOUR
SPOUSE!

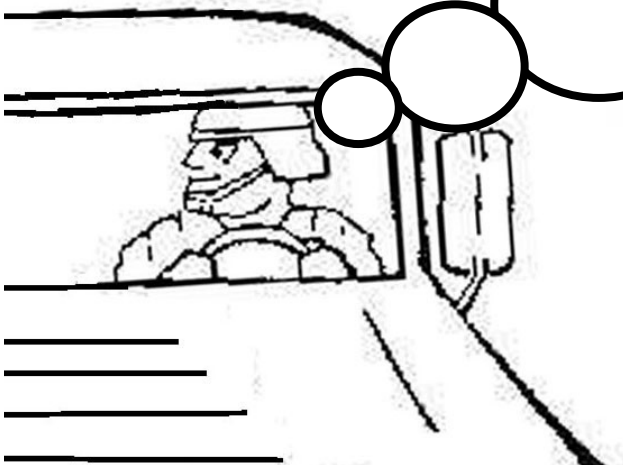

THE KIDS!

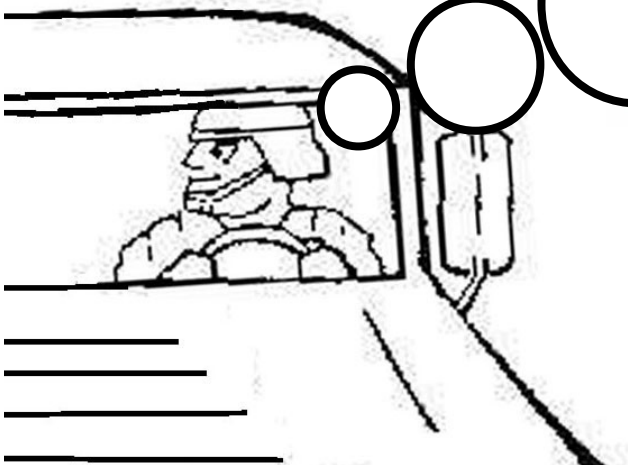

BEER!

AND FOR
THE LADIES,
YOUR
HUSBAND!

AND FOR
SOME,
YOUR
CAR!

But if you think about those things while you're on the job,

You could end up like this

Keep your mind on the
tasks

Composite Risk Management

A

Home

No More
Near Beer!

That's More
Like It!

If you do this...

Don't use these

There is a new campaign in town called:

**Booze it
&
Lose it**

Reminder: Don't drink and drive. Just in case you forgot the basics during your deployment, here's a few examples of the consequences...

Buckle Up – On and Off Duty

Remember, It is all up to you!!!

While you were deployed,
12 soldiers died in off-duty
traffic accidents

After a redeployment,
these have been found...

In a trash can

These were found in a dumpster

Believe it or not, these have been found in a dumpster

A soldier actually put a
Howitzer Round in a
dumpster before the
End of a KFOR rotation.
Incredible.

These are
here for
a reason

Use them!

Once again, congratulations on a job well done. You made it through the deployment safely.

It was not easy. Risk management has been a continuous process.

Keep focused in the next
few weeks as you re-integrate
into your home station operations

Keep your eyes
on the road and
don't let your
mind wander

Remember the situational awareness skills from your deployment,

No matter what
you do to relax

The End

**US ARMY
IN EUROPE**

SAFETY

ANY MISSION, ANYWHERE!
